

# MAG254/255

FAST & POWERFUL IPTV/OTT SET-TOP BOX

MAG254/255 is an optimal solution by Infomir, a European manufacturer company. The device is targeted on Internet providers, content aggregators and system integrators and is used to launch interactive TV services delivered over IP-based network (IPTV, VoD, OTT).

MAG 254 is a unique open platform. Operators can independently make changes in set-top-box firmware, as well as integrate it with their middleware.

MAG255 is a closed platform without the possibility to modify the image. The device is integrated with Verimatrix content protection system and designed for operator's solution with support of this system.
